**To:** R5 ER Notification List  
**Subject:** Incident # 1076635 Buckeye Pipeline Release

**Incident # 1076635:** Buckeye Pipeline reporting an initial release of 500 gallons of gasoline from their pipeline in the area of Illinois Route 113 and Stone Creek Road in Kankakee, IL. Local EMA discovered the release at approximately 00:26 hours, product likely entered a nearby storm drain, boom was deployed at the outfall to the Kankakee River which is currently iced over. Buckeye has contractors en-route (SET and Future Env.) locals responders are on-site. EPA OSC Atkociunas is en-route to the release from Angola, IN and START is en-route from Chicago. The release site appears to be a rural area, no reports of impacts to commercial/residential at this time, but roads in the area are being closed.
